The Department of Aging and Adult Service (DAAS) requests authorization to modify the existing grant agreement with Community Living Campaign for the provision of a community services program pilot for the period of September 1, 2019 to June 30, 2020 in the additional amount of \$406,945 plus a 10% contingency for a total amount not to exceed \$1,223,998. The purpose of this modification is to enable Community Living Campaign to expand its community service program pilot and begin new programming in new neighborhoods with a particular focus on engaging eligible individuals who are not currently accessing community services.

Background

Proposition I, passed by the City and County of San Francisco voters on November 8, 2016, established the Dignity Fund (Fund). The Fund exists to help older adults and adults with disabilities age with dignity in their communities, and secure and utilize services that contribute to their well-being.

The City Charter Amendment for the Fund created an initial baseline funding level and requires the City to increase funding each year through FY 26/27 to address unmet and emerging needs of older adults and adults with disabilities. It also outlines a four year planning cycle starting with a Community Needs Assessment (DFCNA) in FY17/18. The first DFCNA was completed in March 2018. In FY 17/18 and during the DFCNA process, additional dollars were allocated to the Fund as prescribed in the City Charter Amendment.

DAAS, with input from the Oversight and Advisory Committee (OAC) for the Fund, developed a FY 17/18 allocation plan for the additional funding based on known areas of need. The plan included the development and expansion of new community service program models like the community connector program offered by Community Living Campaign that aims to develop a sense of community with a network of supportive neighbors. The model promotes culturally responsive programming that is reflective of the older adults and adults with disabilities in the neighborhoods where the programming exists. There is a demand in several neighborhoods to start new community connector programming.

The DFCNA process also revealed that consumers and providers are concerned about the impact of ageism and ableism in the City. Consumers and providers expressed a desire for the City and DAAS to promote public awareness about ageism and ableism and its negative impacts in the community and requested DAAS to launch a public campaign to reframe aging and disability in an effort to reduce the negative connotations that are associated with aging and disability.

The added funding to this grant will enable Community Living Campaign to establish community connector programming in new neighborhoods and expand its capacity in other neighborhoods. The funding added through this modification will also allow Community Living Campaign to continue its role as a facilitator and DAAS partner in the launch of a public campaign in San Francisco to reframe the public's view of aging and disability in fiscal year 2019-2020.

Modification

Community Living Campaign will expand its community services program pilot to three new districts (Districts 4, 5, and 11) and neighborhoods, the Outer Sunset, Parkside, and Excelsior/Crocker-Amazon. Community Living Campaign will increase capacity at the connector site located in the Sunnyside neighborhood and at the connector site located in the Midtown Terrace neighborhood. Both of these sites are located in District 7. The funding for the expansion of community connector programming in fiscal year 2019-2020 is provided through the city and district specific budget addback process.

Community Living Campaign will also continue to engage with consults to further advance and launch the public campaign created in fiscal year 2018-2019 to reframe aging and disability through the collaborative efforts of community stakeholders, also known as the Reframing Aging workgroup and DAAS. The funding for consulting services to support the public campaign is provided through the Dignity Fund.
