Background

Through the City's annual budgeting process, the Board of Supervisors has included one-time-only funding in the amount of \$120,000 to support Community Services programs for older adults and adults with disabilities in District 9 (\$70,000) and District 11 (\$50,000). Due to their one-time-only nature, these additional funds are only available for FY19/20.

Bernal Heights Neighborhood Center Community Service (BHNC) programs are located on Cortland St. in Bernal Heights (District 9) and on Mission St in the Excelsior district of San Francisco (District 11). The two Centers offer a wide array of activities and programming to enhance the cultural, educational, mental and physical well-being of participants in both communities. The sites can also be the entry point for many older adults and adults with disabilities in need of additional services, such as on-site translation and social services.

Services to be Provided

The modification will provide funds to launch the Cultural Wellness Program at the Cortland location. This program will bridge food education and cooking classes based on culture and wellness. Participants will learn how to incorporate healthy substitutes in their favorite recipes while integrating physical activity to their routine. This program will be offered at the Cortland site as well as other housing sites in the area

The modification will also provide funds to hire an outreach coordinator who will focus on reaching, engaging, and motivating the diverse and at times hard to reach older adults and adults with disabilities in the community to connect them to services at the Excelsior site.

Performance

Bernal Heights Neighborhood Center was determined to be in compliance during the Fiscal and Compliance monitoring conducted on February 17, 2019. The grantee was determined to be in compliance with programmatic monitoring conducted on May 3, 2019.

Selection

Grantees were selected through RFP #785 issued in February 2018.

Funding

Modification is provided by the County General Funds.

Activities and services focus on the physical, social, psychological, economic, educational, recreational, and/or creative needs of older persons and adults with disabilities. These activities and services are provided in the agency's Community Center and in the community.

There are four categories of services:

- 1) <u>Activity Scheduling</u> Units of service are measured by the number of scheduled activity hours sponsored by the Community Centers. Activities may include educational presentations, workshops, trainings, cultural events, food bag programs, social events, exercise classes, arts and crafts classes, discussion groups, sports activities, support groups, field trips, and any other group activity that brings people together for education or wellness purposes that help consumers maintain/enhance their level of functioning.

Assistance may include information and referral, forms/application completion, home visits, medical escort services, and emotional support by phone or in person.
- 4) Enhanced Outreach While there is an expectation that Community Centers will do outreach within their existing Community Service budgets to reach their target populations, some agencies may decide to propose more formal outreach plans or a specific campaign to address access barriers in the community. Examples of this may include working with a community collaborative group, designing and implementing an outreach plan for an underserved area, problem-solving certain barriers to service, i.e., safety issues, transportation needs, etc. Enhanced outreach efforts must receive prior review and approval from Office of Community Partnerships staff before commencing. Units of service are measured by the number of hours spent working on enhanced outreach. Enhanced outreach is not being funded through this Grant.

For FY 19-20, the agency will launch a Cultural Wellness Program. This program will bridge food education and cooking classes based around culture and wellness. Participants will learn how to incorporate healthy substitutes in their favorite recipes while integrating exercise into their lifestyle regimen.

VI. Service Description

Community Services consist of activities/services that maintain or improve the quality of life of consumers. Activities and services focus on the physical, social, psychological, economic, educational, recreational, and/or creative needs of older persons and adults with disabilities. These activities and services are provided in the agency's Community Center and in the community.

There are four categories of services:

- 1) <u>Activity Scheduling</u> Units of service are measured by the number of scheduled activity hours sponsored by the Community Centers. Activities may include educational presentations, workshops, trainings, cultural events, food bag programs, social events, exercise classes, arts and crafts classes, discussion groups, sports activities, support groups, field trips, and any other group activity that brings people together for education or wellness purposes that help consumers maintain/enhance their level of functioning.
- 2) <u>Translation</u> Units of service are measured by the number of hours of translation assistance provided to consumers that cannot speak/read English. In addition, translation may also include the use of American Sign Language, braille, or teleprompting. Translation services may include translation of forms, letters, applications, phone calls, etc. for an individual. It can also include written translation from English of monthly activity calendars, flyers, and verbal translation for group announcements, presentations, etc.
- 3) <u>Social Services</u> Units of service are measured by the number of hours providing one-to-one assistance for individuals to enable them to resolve problems. Assistance may include information and referral, forms/application completion, home visits, medical escort services, and emotional support by phone or in person.
- 4) Enhanced Outreach While there is an expectation that Community Centers will do outreach within their existing Community Service budgets to reach their target populations, some agencies may decide to propose more formal outreach plans or a specific campaign to address access barriers in the community. Examples of this may include working with a community collaborative group, designing and implementing an outreach plan for an underserved area, problem-solving certain barriers to service, i.e., safety issues, transportation needs, etc. Enhanced outreach efforts must receive prior review and approval from Office of Community Partnerships staff before commencing. Units of service are measured by the number of hours spent working on enhanced outreach.

Enhanced outreach will be funded for FY 19-20 through addback funding. This will allow for an outreach coordinator who will focus on reaching, educating, and motivating the diverse and at times hard to reach population in the community to connect to services.
