Community Services consist of activities/services that maintain or improve the quality of life of consumers. Activities and services focus on the physical, social, psychological, economic, educational, recreational, and/or creative needs of older persons and adults with disabilities. These activities and services are provided in the agency's Community Center and in the community.

There are four categories of services:

- 1) <u>Activity Scheduling</u> Units of service are measured by the number of scheduled activity hours sponsored by the Community Centers. Activities may include educational presentations, workshops, trainings, cultural events, food bag programs, social events, exercise classes, arts and crafts classes, discussion groups, sports activities, support groups, field trips, and any other group activity that brings people together for education or wellness purposes that help consumers maintain/enhance their level of functioning.
- 2) <u>Translation</u> Units of service are measured by the number of hours of translation assistance provided to consumers that cannot speak/read English. In addition, translation may also include the use of American Sign Language, braille, or teleprompting. Translation services may include translation of forms, letters, applications, phone calls, etc. for an individual. It can also include written translation from English of monthly activity calendars, flyers, and verbal translation for group announcements, presentations, etc.
- 3) <u>Social Services</u> Units of service are measured by the number of hours providing one-to-one assistance for individuals to enable them to resolve problems. Assistance may include information and referral, forms/application completion, home visits, medical escort services, and emotional support by phone or in person.
- 4) Enhanced Outreach While there is an expectation that Community Centers will do outreach within their existing Community Service budgets to reach their target populations, some agencies may decide to propose more formal outreach plans or a specific campaign to address access barriers in the community. Examples of this may include working with a community collaborative group, designing and implementing an outreach plan for an underserved area, problem-solving certain barriers to service, i.e., safety issues, transportation needs, etc. Enhanced outreach efforts must

receive prior review and approval from Office of Community Partnerships staff before commencing. Units of service are measured by the number of hours spent working on enhanced outreach.

Enhanced outreach is not being provided by the Western Addition Community Center as part of this grant. (Note: Other BHPMSSP sites are conducting enhanced outreach.)
