#### Background

The Aging and Disability Resource Center serves as a one-stop shop for information, referral, assistance, and translation services throughout San Francisco. ADRCs provide crucial support for many older adults, adults with disabilities and caregivers in the community. Specifically, ADRCs around the

City provide services that assist people to continue living independently in the community, connecting them with long-term services and supports. ADRCs are located throughout the City and each ADRC has trained staff and on-site supervisors.

ADRC services are structured to ensure availability and accessibility in each of the supervisory districts in San Francisco. Some districts have multiple sites, depending on the borders of their districts and the availability of appropriate hubs. Each ADRC must demonstrate the capability to serve older people and adults with disabilities in their supervisory district and neighboring districts, if applicable.

#### Services to be Provided

#### Aging and Disability Resource Center (ADRC):

The ADRC provides one-stop shop access to information, referral, assistance, and translation services for older people, adults with disabilities, and caregivers at key neighborhood locations. ADRC staff work in multiple sites which are already hubs for older people and adults with disabilities accessing other services. The ADRC staff provide services a minimum of 5 days a week. An additional Citywide ADRC Coordinator meets with staff employed by ADRC sites on a weekly and monthly basis. This coordinator is responsible for providing training, clinical consultation, and executing an outreach plan for the ADRC sites. The Citywide ADRC Coordinator and on-site supervisor meet monthly to avoid any issues of dual consultation/support.

<sup>3</sup> Citywide ADRC focused on adults with disabilities

Citywide ADRC Coordinator:

The Citywide ADRC Coordinator contributes to the knowledge, helps develop skills, and consults on the performance of ADRC staff working with seniors and adults with disabilities. The coordinator works with ADRC staff on offering information and referral, assistance, and follow-up services in accordance with statewide and national standards. The Citywide ADRC Coordinator is available to meet in a large group format and on an individual basis with ADRC staff. The specifics of either consultation model are worked out with each specific agency. This flexibility allows for the service model to respond to the culture of each organization.

The Citywide ADRC Coordinator provides resources by bringing together ADRC staff from a variety of agencies for group and individual consultation meetings and administrative trainings. In general, the coordinator provides more focused and advanced trainings and consultation opportunities than can often be provided by most community organizations.

Aging and Disability Resource Centers (ADRC) provide information, assistance and translation services at locations throughout San Francisco. ADRCs provide crucial support for many older adults, adults with disabilities and caregivers in the community.

ADRC services are structured to ensure availability and accessibility in each of the supervisory districts, throughout San Francisco. Grantees will be required to serve older adults and adults with disabilities of all ages in the specified supervisory district (or districts).

Services include:

- Client needs assessment;
- Information and Referral Linking individuals to services available in the community where client lives. #### V. Description of Services

Aging and Disability Resource Centers (ADRC) provide information, assistance and translation services at locations throughout San Francisco. ADRCs provide crucial support for many older adults, adults with disabilities and caregivers in the community.

ADRC services are structured to ensure availability and accessibility in each of the supervisory districts, throughout San Francisco. For example, an ADRC on a boundary between districts may actually serve both. This may result in multiple ADRCs within a single district with none in a neighboring district. Grantees will be required to serve older adults and adults with disabilities of all ages in the specified supervisory district (or districts).

Services include:

- Client needs assessment;
- **Information and Referral** Linking individuals to services available in the community where client lives. Services include, but are not limited to adult day health care, caregiver assistance/support, community services, health and wellness, education, emergency preparedness, employment, financial assistance, government assistance, food/nutrition assistance, housing and shelter, in-home care, legal, safety, recreation, senior centers, translation, mental health, disability resources, vocational training, LGBTQ+ programs/services and transportation;
- Assistance Support of an individual to secure the services required to meet his or her needs. This may include filling out forms and applications, providing translation, contacting agencies on behalf of the client, completing on-line referrals, writing letters, making phone calls to set up or confirm appointments, escorting the client to service providers, and conferring with service providers to ensure the client's needs will be met.;
- **Follow-up** Ensuring the individual receives the services needed, and is aware of the opportunities available by contacting the client or service provider.

# **III.** Target Population

The intended recipients of the services provided by the Citywide ADRC Coordinator are DAS funded community ADRC staff working with older adults and adults with disabilities.

#### IV. Eligibility for ADRC Coordinator Services

DAS funded ADRC staff working with older adults and adults with disabilities.

#### V. Location and Time of Services

Group consultation, individual consultation, and didactic trainings will be delivered at the Institute on Aging and/or each ADRC. Exact schedule and location will be determined in conjunction with the ADRC staff and their on-site supervisors.

The Citywide ADRC Coordinator will work with ADRC staff on offering information and referral, assistance, and follow up services in accordance with statewide and national standards. The Citywide ADRC Coordinator is available to meet in a large group format and on an individual basis with ADRC staff. The specifics of either consultation mode will be worked out with each specific agency. This flexibility allows for the service model to respond to the culture of each organization.

#### VI. Description of Services

The ADRC is a "no wrong door" model for consumers to access long term care services and supports. It is achieved through a partnership between DAS, the Citywide ADRC Coordinator and the ADRCs throughout San Francisco. The Citywide ADRC Coordinator assists with this by providing: individual and group administrative support, didactic and administrative training, chart and documentation review, and opportunities for professional networking/resource sharing.

The Citywide ADRC Coordinator shall be responsible for arranging for and identifying necessary outreach efforts to promote ADRCs in neighborhoods throughout the City, advertising information and referral services in coordination with ADRC staff.

The Citywide ADRC Coordinator shall monitor the effectiveness of services at each outstation (e.g., conducting timely follow up activities, appropriateness of referrals, adequate service levels), providing feedback to the DAS contract monitor as needed.

#### **Citywide ADRC Coordinator Grantee Responsibilities:**

- Monthly group consultation for all ADRC staff. Group meetings provide case consultation, topic specific training, and review of core tasks and standards of information and referral as well as assistance concepts to improve the ADRC staff's general performance as well as their ability to work with clients (e.g., recognizing case management and other social service needs of clients and the need for follow-up with clients). For group consultation, the Citywide ADRC Coordinator will also bring in outside experts and trainers to expand knowledge of resources, geriatric and disability related topics, and improving skills in assessments, effective follow-up, and managing challenging client issues. An added benefit of the group consultation context is the camaraderie that develops between participants encouraging resource sharing, cross agency referrals, and peer review and guidance.
- Deliver weekly individual and administrative consultation to ADRC staff. Individual consultation sessions emphasize specific ADRC staff performance issues, challenging client issues and offer guidance for maintaining quality information and referral services. In addition, individual consultation provides a forum to address and improve charting and documentation issues.

- Meet with ADRC site supervisors on a quarterly basis to ensure coordination between the Citywide ADRC Coordinator and the day to day ADRC site supervisors in order to make programs more effective and avoid any problems of "dual support."
- Develop and maintain outreach plan and materials for ADRC staff collaboration. The plan will identify targets for increased utilization of ADRC services in historically underserved neighborhoods. The plan will, at a minimum, develop and identify outreach events in conjunction with other ADRC partners, updating outreach events monthly.
- Collaborate with DAS analyst and Integrated Intake Hub at 2 Gough St on efforts to meet California Department of Aging ADRC operations criteria. This includes attending the quarterly ADRC Advisory Council meeting and the quarterly ADRC supervisors meeting.
- Develop partnerships with other community organizations across the City to ensure a robust network of service provision.
- Arrange for the execution of outreach events, providing outreach through presentations and fairs, and partnering with ADRC staff and/or DAS to staff events.
- Provide training and consultation to the ADRC staff regarding the ADRC service.
- Designate at least one 1.0 FTE as the Citywide ADRC Coordinator and provide back-up staff in case of any absence.
- Ensure that the Citywide ADRC Coordinator has the technology and systems available to meet the needs of training, consulting and coordinating the ADRC staff.

#### VII. Service Objectives

- Provide staff consultations to all ADRCs on a weekly basis for at least 46 weeks of the fiscal year.
- Host 12 monthly ADRC staff group meetings.

- Complete a monthly outreach plan calendar.

Grantee will provide a quarterly report on the service objectives.

- Assistance Support of an individual to secure the services required to meet his or her needs. This may include filling out forms and applications, providing translation, contacting agencies on behalf of the client, completing on-line referrals, writing letters, making phone calls to set up or confirm appointments, escorting the client to service providers, and conferring with service providers to ensure the client's needs will be met.;
- **Follow-up** Ensuring the individual receives the services needed, and is aware of the opportunities available by contacting the client or service provider.

ADRC services are structured to ensure availability and accessibility in each of the supervisory districts, throughout San Francisco. For example, an ADRC on a boundary between districts may actually serve both. This may result in multiple ADRCs within a single district with none in a neighboring district. Grantees will be required to serve older adults and adults with disabilities of all ages in the specified supervisory district (or districts).

Services include:

- Client needs assessment;

- Assistance Support of an individual to secure the services required to meet his or her needs. This may include filling out forms and applications, providing translation, contacting agencies on behalf of the client, completing on-line referrals, writing letters, making phone calls to set up or confirm appointments, escorting the client to service providers, and conferring with service providers to ensure the client's needs will be met.;
- **Follow-up** Ensuring the individual receives the services needed, and is aware of the opportunities available by contacting the client or service provider.

- Assistance Support of an individual to secure the services required to meet his or her needs. ADRC services are structured to ensure availability and accessibility in each of the supervisory districts, throughout San Francisco. For example, an ADRC on a boundary between districts may actually serve both. This may result in multiple ADRCs within a single district with none in a neighboring district. Grantees will be required to serve older adults and adults with disabilities of all ages in the specified supervisory district (or districts).

Services include:

Services include, but are not limited to adult day health care, caregiver assistance/support, community services, health and wellness, education, emergency preparedness, employment, financial assistance, government assistance, food/nutrition assistance, housing and shelter, in-home care, legal, safety, recreation, senior centers, translation, mental health, disability resources, vocational training, LGBTQ+ programs/services and transportation;
- Assistance Support of an individual to secure the services required to meet his or her needs. This may include filling out forms and applications, providing translation, contacting agencies on behalf of the client, completing on-line referrals, writing letters, making phone calls to set up or confirm appointments, escorting the client to service providers, and conferring with service providers to ensure the client's needs will be met.;
- **Follow-up** Ensuring the individual receives the services needed, and is aware of the opportunities available by contacting the client or service provider.

## V. Description of Services

Aging and Disability Resource Centers (ADRC) provide information, assistance and translation services at locations throughout San Francisco. ADRCs provide crucial support for many older adults, adults with disabilities and caregivers in the community.

ADRC services are structured to ensure availability and accessibility in each of the supervisory districts, throughout San Francisco. For example, an ADRC on a boundary between districts may actually serve both. This may result in multiple ADRCs within a single district with none in a neighboring district. Grantees will be required to serve older adults and adults with disabilities of all ages in the specified supervisory district (or districts).

Services include:

- Client needs assessment;
- Information and Referral Linking individuals to services available in the community where client lives. Services include, but are not limited to adult day health care, caregiver assistance/support, community services, health and wellness, education, emergency preparedness, employment, financial assistance, government assistance, food/nutrition assistance, housing and shelter, in-home care, legal, safety, recreation, senior centers, translation, mental health, disability resources, vocational training, LGBTQ+ programs/services and transportation;
- Assistance Support of an individual to secure the services required to meet his or her needs. This may include filling out forms and applications, providing translation, contacting agencies on behalf of the client, completing on-line referrals, writing letters, making phone calls to set up or confirm appointments, escorting the client to service providers, and conferring with service providers to ensure the client's needs will be met.;
- **Follow-up** Ensuring the individual receives the services needed, and is aware of the opportunities available by contacting the client or service provider.

ADRC services are structured to ensure availability and accessibility in each of the supervisory districts, throughout San Francisco. For example, an ADRC on a boundary between districts may actually serve both. This may result in multiple ADRCs within a single district with none in a neighboring district. Services include:

- Assistance Support of an individual to secure the services required to meet his or her needs. This may include filling out forms and applications, providing translation, contacting agencies on behalf of the client, completing on-line referrals, writing letters, making phone calls to set up or confirm appointments, escorting the client to service providers, and conferring with service providers to ensure the client's needs will be met.;
- **Follow-up** Ensuring the individual receives the services needed, and is aware of the opportunities available by contacting the client or service provider.
