The Department of Disability and Aging Services (DAS) requests authorization to enter into new grant agreements with multiple providers for the provision of a home delivered grocery program for older adults and adults with disabilities during the period of July 1, 2021 through June 30, 2025, in a combined amount of \$5,851,149 plus a 10% contingency for a total amount not to exceed \$6,436,264. The funding amounts are detailed in the tables on page 3.

London Breed Mayor

Trent Rhorer Executive Director The annual amount in FY 21/22 reflects additional funding allocated in the City budget to meet the elevated demand that DAS nutrition partners are experiencing because of the coronavirus pandemic. DAS allocated the additional funding to nutrition providers who are providing home delivered grocery services above their baseline service levels and/or anticipate a surge in FY 21/22 with a particular focus on equity factors.

Background

The San Francisco Department of Disability and Aging Services (DAS) funds a broad array of nutrition and wellness services at the community level for older adults and adults with disabilities living in the City and County of San Francisco which promote health and wellbeing by providing nutritious foods, meals, and supporting healthy lifestyles. These services include the provision of home-delivered grocery programs.

P.O. Box 7988 San Francisco, CA 94120-7988 www.SFHSA.org Older adults and adults with disabilities living in San Francisco are at risk for compromised nutritional status and food insecurity for a variety reasons including limited income. Low-income older adults and adults with disabilities can have limited access to fresh, seasonal produce and other healthy food products, which further puts them at risk. Food security and health are closely connected, and sound nutrition is an important factor in maintaining good health. Not having enough food or having to choose food with low nutritional value because of cost can have a negative impact on an individual's health and wellbeing.

Home delivered grocery programs serve low-income older adults and adults with disabilities who need additional food resources and have capacity to store food and prepare meals but are unable to visit local food pantries or transport food home. The provision of a home-delivery grocery program mitigates the risk of food insecurity and promotes the consumption of healthful foods by delivering groceries directly to the home of eligible individuals. The program also provides access to other home and community-based services, which can help support safe and independent living in the community.

Services to be Provided

Grantees will provide home-delivered grocery services. Each of the grantees will form an agreement with the DAS Food Assistance Program grantee (currently the San Francisco Marin Food Bank) to obtain a predetermined amount and variety of groceries for each eligible consumer and distribute the groceries to the consumer. Grantees will operate all aspects of home-delivered grocery services in accordance with nutrition and food service standards as set forth by California Retail Food Code (CRFC), local regulations (i.e. Environmental Health Division of the San Francisco Department of Public Health), and DAS OCP. Each of the grantees will conduct program outreach to the target populations. Grantees may also provide social services and scheduled activities to connect the participants to other neighbors, services, and/or organizations.

Please refer to the attached Appendix A for each of the grantees for specific information regarding the breakdown of services, defined objectives, and target population.

I. Purpose

The purpose of this grant is to provide a home-delivered grocery (HDG) program for older adults and adults with disabilities living in the City and County of San Francisco. A HDG program facilitates the delivery of supplemental groceries to the home of eligible individuals.
