The Department of Benefits and Family Support (BFS) requests authorization to modify the existing grant with Unity Care Group for the period of April 1, 2022 to June 30, 2023, in an additional amount of \$1,018,619 plus a 10% contingency for a revised total amount not to exceed \$2,292,444. The goal of this service is to prevent and reduce homelessness of emancipating and former foster youth. The purpose of this modification is to provide an expanded housing program and support to emancipating and former foster youth.

### Background

Building on lessons learned from the Families Moving Forward Program and the City's commitment to the Housing First model, HSA applied for state grant funds as part of a statewide housing initiative intended to reduce homelessness in emancipating foster children and youth. Homelessness continues to be a crisis in San Francisco, particularly for this population of transitional aged youth, aged 18 to 24, who are emancipating from foster care and at risk for becoming homeless.

The Unity program is designed to prevent and reduce homelessness of emancipating and former foster youth. Housing supports include 36 months of independent living skills support to promote self-sufficiency and housing retention. The additional funding provided by the modification will allow for increased direct housing assistance to youth.

Emancipating young adults experience a number of risk factors as they transition from care, with housing being the most critical need. The pandemic has exacerbated this need. In 2021, COVID extensions in place for over 12 months ended and an unprecedented number of 21+ year olds left care. Former foster youth are more likely to be at risk of homelessness. This, coupled with the high cost of housing, makes it a challenge to identify affordable housing. By participating in the federal Foster Youth Independence Initiative (FYI) that provides housing choice vouchers to subsidize rent for up to 5 years with continued independent living housing retention services, allows FCS to expand the availability of housing choice options.

#### Services to be Provided

Unity has a goal to serve up to 35 youth in the first year and up to 70 over the course of the grant. Services to youth will include housing navigation and case management, stabilization and retention services, which will include life skills, money management and job and education counseling. Housing services are key, with providing youth with both short and longterm housing subsidies. Additionally, youth will be linked to the Youth Homeless Response System, to offer seamless support.

Additional funding provided by the modification will provide for additional staff and support designed primarily for housing. Services include funds for transitional housing, basic needs and moving and other ancillary costs. There are no changes to the current scope; but additional funding will deepen the support Unity is able to provide the youth.

### **Location of Services**

Program Administrative offices will be located at 2198 Cayuga Ave, San Francisco CA, 94112 Services may also be provided at to be determined satellite locations. Unity Care's general hours of operation are Monday through Friday 9:00 am to 5:00 pm. While services often occur within this time period, Unity Care provides flexible support for clients which include evenings and weekends as needed.

### Selection

Unity Care Group was selected from RFP 932 - Housing Navigation & Supportive Services for Emancipating Non-Minor Dependents, issued in April 2021.

### Funding

### I. Purpose of Grant

The purpose of the grant is to provide housing case management services to support a new Family & Children's Services Foster Youth Housing Program (FYHP) funded by a California Department of Housing and Community award designed to reduce emancipating Non-Minor Dependent (NMD) and former foster youth homelessness.

The grantee will utilize Foster Youth to Independence Initiative (FYII) Family Unification Program (FUP) vouchers recently awarded to the San Francisco Housing Authority as a housing solution.

The FYHP embraces a housing first approach to prevent and reduce homelessness of emancipating and former foster youth who have been identified as being at risk of homelessness, currently homeless or experiencing housing instability.

The goal of this service is to reduce homelessness for foster youth working in collaboration with the Department of Supportive Housing and Homelessness (HSH) and the San Francisco Housing Authority.
