The Department of Benefits and Family Support (BFS) requests authorization to enter into a new grant with Seneca Family of Agencies for the period of July 1, 2022 to June 30, 2026, in an amount of \$4,189,660 plus a 10% contingency for a total amount not to exceed \$4,608,626. The purpose of the grant is to help families follow court orders for visitation by providing transportation to and supervision during visitation meetings, both in San Francisco and in the East Bay.

Background

Visitation is the heart of family reunification, providing education and family support. A wide body of research indicates that the frequency and quality of visitation is positively associated with reunification of families in the child welfare system. This grant combines two individual visitation programs into one grant, which will allow for greater efficiency.

East Bay Visitation Program

Approximately 40% of San Francisco's foster children are placed in the seven counties east of San Francisco. Visiting services for children closer to their placement minimizes long, exhausting and costly transportation of children to Court-ordered visits. The East Bay Visitation Program (EBVP) offers two primary visitation center sites and four satellite sites in the East Bay, and a new site in San Jose, and are located close to public transportation, allowing parents to self- transport to visit near the child's placement. The centers are safe and family-friendly where resource families, parents, caregivers and county staff may drop off and pick up child(ren). These sites will also be used in collaboration with Contra Costa County Child Welfare, who are executing a sister grant with Seneca, derived from the joint RFP issued earlier this year.

First Stop Visitation Center

The First Stop Visit Center, established in 2009, is a community-based visitation program that is a critical component of HSA's visitation services, supporting reunification services and permanency plans for children in outof-home placement in the child welfare system. The center facilitates courtmandated visits that must occur within the first five calendar days that a child is separated from their family. First Stop also offers direct visitation, supervision, and provides a centralized referral system for scheduling ongoing visits for families receiving reunification services to the Family Resource Centers (FRC).

Services to be Provided

Seneca will provide similar visitation services for both programs. Both programs align with FCS's current visitation practices, which includes but is not limited to: documentation of the visit, communication with the family and FCS staff and compliance with all court orders. The main sites in the East Bay provide space for county staff that are transporting or otherwise involved with families to utilize during visits as appropriate. Unlike the First Stop Program, which is designed for families in their first five days from the child separation, the East Bay Program will provide a range of supervision services to build parenting capacity and remediate

safety issues impacting reunification and assist the family in moving along the visitation continuum to hopefully, reunification.

All the sites together will provide the capacity for approximately 160 visitation hours per week, with visits being approximately 2 to 3 hours each or as otherwise arranged. Additionally, the First Stop grant include funds for transportation for weekend and weekday visits or school, depending on the need.

The main visitation sites will be in Antioch and Fairfield, with satellite sites in Concord, San Leandro, Crockett and El Sobrante and a new site in San Jose.

For First Stop, services are provided at 3119 Mission Street, Monday-Friday 10-6 and Saturday and Sundays by appointment.

See the attached scopes for further description and detail.

Selection

Seneca was selected through Request for Proposals 964 which was competitively bid in February 2022.

Funding

Funding for this grant is provided by a combination of local, State and Federal funds.

IV. Description of Services

A visitation is defined as a recurring appointment on a particular day and time or a nonrecurring appointment that is scheduled and confirmed with all parties regardless of whether the visitation actually takes place. Services should be offered in a neutral, non-judgmental environment. The provider should assist the family in maintaining familial bonds, improving parent/child relationships and the parent's ability to ensure child safety, and achieving good permanency and well-being outcomes for children and youth.

- A. Provide a visitation program using multiple sites located close to public transportation, allowing parents a place to visit near the child's placement.
- B. The centers should be safe and family-friendly and provide space for Seneca-supported visitation as well as space for the following:

- 1. Drop off/pick up of children and visit participants
- 2. Meetings with families, resource families, visitation partners, and staff as needed around the visitation process, including but not limited to Child and Family Team meetings.
- 3. Visits supervised by county or other partners as needed and mutually agreed
- 4. Work space/docking station for county staff who are transporting or otherwise involved with families to utilize during visits as appropriate
- 5. Therapeutic visitation offered by designated clinicians to eligible families.
- C. Provide prompt visitation and transportation coordination to move families to visits in a timely manner.
- D. Accept all referrals for visitation based on designated criteria, to be determined by FCS
- E. Provide qualified and trained staff, including language capacity, to offer services at the Visitation Center(s) during hours of operation.
- F. The family partner will provide peer support to family members and coordinate parent support activities and resource to help family member engage in process
- G. Provide a range of supervision services to build parenting capacity and remediate safety issues impacting reunification
- H. Report timely observations to the CWW regarding family interactions, progress and concerns utilizing agreed upon forms, timeframe, and process
- I. Staff and maintain the Visitation Centers to the level of service and safety as required by weekly scheduled workload.
- J. Provide the capacity for approximately 50 visitation hours per week.
 - 1. Supervised visits would be no less than 60 minutes of parent-child interaction but may be shortened if parties are late, or if the quality of the visit would benefit from a shorter time schedule.
 - 2. Visits may be 2 to 3 hours in length depending on the needs of the case including court requirements.
- K. Participate in visitation related trainings and workgroups, including but not limited to training on the counties' visitation models, SOP and Visitation, and developing behaviorally-based visitation plans and visitation notes, and align Seneca forms, policy and practices accordingly.
