The Department of Aging and Adult Services (DAAS) requests authorization to enter into a new grant agreement with Homebridge for In-Home Supportive Services (IHSS) Contract Mode and Provider Skill Development Training and Supports for the term of July 1, 2017 through June 30, 2019 for an amount of \$80,201,457 plus a 10% contingency of \$8,020,146 for a total not to exceed amount of \$88,221,603. The purpose of this grant is to provide in-home supportive services to a target population in need of personal care and standardized skill development training and supports to IHSS providers.

Because the proposed grant is over \$10,000,000, it is subject to approval from the Board of Supervisors in accordance with Charter Section 9.118(b) of the San Francisco Administrative Code. The Department is concurrently seeking Board approval of this grant.

Background

The In-Home Supportive Services (IHSS) Program is a Federal/State/County funded, county administered program that provides assistance to eligible aged, blind, and disabled adults

Edwin M. Lee, Mayor

including hoarders and clutterers living in their own homes, SRO hotels, senior housing, or public housing, as well as formerly homeless individuals. Without this assistance, these individuals, who are unable to fully care for themselves or handle routine household tasks, would not be able to remain safely in their homes. The IHSS program is designed pursuant to the California Department of Social Services (CDSS) MPP Section 30-700, as an alternative to out-of-home care and/or institutional placement.

IHSS pays for a wide variety of services – household chores and personal care – enabling individuals to live safely in his/her own homes, while encouraging independence and rehabilitation wherever possible. IHSS is provided through either an independent provider (IP) or an agency provider (Contract Mode IHSS). Clients who utilize independent providers contract directly with the IP's. Some clients, however, are unable to find and/or supervise their own IP's. The Department contracts with agencies to provide a safety net for these clients.

Services to be Provided – IHSS Contract Mode

Grantee shall provide an estimated 645,865 hours of supervised Contract Mode IHSS services annually. Recipients receive an average of 45 hours of service per month. Grantee field supervisors will have frequent contacts with the clients (minimum four home visits a year), with the providers, and with DAAS social workers. The grant also provides for regular monitoring of contract activities through monthly reports to the Department and regular meetings with Department staff. The Grantee will conduct client satisfaction surveys and solicit feedback from Department staff to measure performance.

Services to be Provided – Provider Skill Development Training and Supports

Grantee shall provide standardized skill development training and supports to Contract Mode and Independent Providers of IHSS, as well as IHSS Registry Providers. The estimated hours of classroom trainings are 3,016 annually.

Services will include ongoing basic and advanced skill development training to IHSS providers. Skill development is training that has a direct relationship to job competencies required of a home care provider that will enable them to provide safe, efficient and appropriate domestic and personal care services. The Grantee shall assess the skill level of each home care provider in relation to the domestic and personal care services they will be required to perform and shall provide training that relates to job competencies. Additionally, Grantee must offer post training supports to IHSS providers that have completed training. The Grantee shall maintain records of all home care providers' skill assessments and specific training provided to meet minimum standards of competency.

Selection

This Grantee was selected through Request for Proposals (RFP) #679 issued in March 2016.

Funding

This grant utilizes a combination of Federal, State and County funds.
