The Department of Aging and Adult Service (DAAS) requests authorization to modify the existing grant agreement with Community Living Campaign for the provision of a community services program pilot for the period of July 1, 2018 to June 30, 2020 in the additional amount of \$157,990 plus a 10% contingency for a total amount not to exceed \$706,189. The purpose of this modification is to enable Community Living Campaign to expand its community service program pilot and begin programming at three new locations with a particular focus on engaging eligible individuals who are not currently accessing community services.

Background

Proposition I, passed by the City and County of San Francisco voters on November 8, 2016, established the Dignity Fund (Fund). The Fund exists to help older adults and adults with disabilities secure and utilize services that contribute to their well-being and ability to live safely and securely in their own homes and communities. The Fund is administered by the Department

of Aging and Adult Services (DAAS). The City Charter Amendment requires the establishment of an Oversight and Advisory Committee (OAC) to monitor and support the administration of the Fund and dictates a four year planning cycle for the Fund starting with a Community Needs Assessment (DFCNA) in fiscal year 2017-2018.

The OAC is responsible for developing recommendations regarding services for older adults and adults with disabilities that can be supported by the Fund and providing those recommendations to DAAS. DAAS in consultation with the OAC develops annual allocation plans for monies in the Fund based on the service needs of older adults and adults with disabilities identified in the DFCNA and any follow up needs assessments conducted by DAAS.

RFP #767 was issued to address community service programming needs identified and outlined in the annual allocation plan for fiscal year 2017-2018. The DFCNA completed in March 2018 highlighted consumers' appreciation for community service programming that provides options, is creative, and promotes community and social engagement. Community Living Campaign community service program pilot utilizes a community connector model that aims to develop a sense of community with a network of supportive neighbors. The community connector model promotes culturally responsive programming that is reflective of the older adults and adults with disabilities in the neighborhoods where the programming exists.

Services to be Provided

Community Living Campaign will provide new community service activity programming for older adults and/or adults with disabilities living in the City and County of San Francisco and will conduct outreach focused on engaging eligible consumers who are not currently accessing community services. Translation and social services during programming hours may also be provided to meet the needs of enrolled consumers.

Community Living Campaign will have at least one (1.0) full time equivalent (FTE) dedicated to the New Community Service Program Pilot funded by this grant agreement to coordinate and deliver programming and the associated service units and to ensure that outcome objectives and reporting requirements are met.

In fiscal year 2018-2019, Community Living Campaign will secure the consulting services of an agency and/or individual to manage the development of a collaborative public campaign with DAAS and other community based organizations that provide services for older adults and adults with disabilities. The campaign will be focused on reframing the public view of aging and disability and educating the public, eligible consumers and providers about the services and supports offered and available through DAAS and/or community based organizations for older adults with disabilities.

Modification

In fiscal year 2018-2019, Community Living Campaign will expand its community services program pilot to include three (3) new locations; two (2) in District 7 and one (1) in District 5 for a total of six (6) sites.

In fiscal year 2019-2020, Community Living Campaign will continue to provide the expanded programming in District 7 for a total of five (5) sites. The funding for programming in District 5

2

in fiscal year 2018-2019 is provided through the city and district specific budget addback process and at this time is only available through fiscal year 2018-2019.

For more specific information regarding the service objectives, including the type and number of service units, outcome objectives, and budget, please refer to attached Appendices A-3, B-3 and F-3.
