The Department of Aging & Adult Services (DAAS) requests authorization to modify the existing grant agreement with Homebridge for In-Home Supportive Services (IHSS) Contract Mode and Provider Skill Development Training and Supports for the time period beginning July 1, 2019 and ending June 30, 2020, in the additional amount of \$27,679,289 plus a 10% contingency, for a new total amount not to exceed of \$96,109,679. The purpose of this modification is to extend IHSS to a target population in need of personal care and standardized skill development training and support through fiscal year 19/20.

#### Background

In-Home Supportive Services is a Federal, State and County funded program, administered by the County to provide assistance to eligible aged, blind, and disabled persons living in their own homes. Without this assistance, these individuals, who are unable to fully care for themselves or

handle routine household tasks, would not be able to remain safely in their homes. The IHSS program is designed pursuant to the California Department of Social Services (CDSS) MPP Section 30-700, as an alternative to out-of-home care and/or institutional placement.

IHSS pays for a wide variety of services including household chores and personal care, which enable individuals to live safely in their own home, while encouraging independence. IHSS is provided through either an independent provider (IP) or an agency provider (Contract Mode). Clients who utilize IPs contract directly with the IPs. Some clients, however, are unable to find and/or supervise their own IPs. DAAS contracts with Homebridge to provide Contract Mode services to these clients. In the Homebridge Contract Mode model, the client receives home care from specially trained and supervised providers employed by Homebridge.

#### Modification

The purpose of the modification is to extend services through Fiscal Year 19/20 as follows:

#### Services to be Provided – IHSS Contract Mode

For the fiscal year 19/20, Grantee shall provide an estimated 514,863 hours of supervised Contract Mode IHSS services. Recipients receive an average of 45 hours of service per month. Grantee Care Supervisors will have frequent contacts with the clients (minimum four home visits a year), with the providers, and with DAAS social workers. The grant also provides for regular monitoring of contract activities through monthly reports to the Department and regular meetings with Department staff. The Grantee will conduct client satisfaction surveys and solicit feedback from Department staff to measure performance.

#### Services to be Provided – Provider Skill Development Training and Supports

For the fiscal year 19/20, Grantee shall provide standardized skill development training and supports to Contract Mode and Independent Providers of IHSS, as well as IHSS Registry Providers. The estimated hours of classroom trainings are 3,280 annually.

Services will include ongoing basic and advanced skill development training to IHSS providers. Skill development is training that has a direct relationship to job competencies required of a home care provider that will enable them to provide safe, efficient and appropriate domestic and personal care services. The Grantee shall assess the skill level of each home care provider in relation to the domestic and personal care services they will be required to perform and shall provide training that relates to job competencies. Additionally, Grantee must offer post training supports to IHSS providers that have completed training. The Grantee shall maintain records of all home care providers' skill assessments and specific training provided to meet minimum standards of competency.

#### Selection

Grantee was selected through Request for Proposals (RFP) #679 issued in March 2016. In addition, because the proposed grant modification is over \$500,000 to an agreement in excess of \$10 Million dollars; it is subject to approval from the Board of Supervisors in accordance with Charter Section 9.118(b) of the San Francisco Administrative Code. The Department is concurrently seeking Board approval of this grant modification.

#### Performance

Grantee was determined to be in compliance with fiscal and programmatic requirements for FY 18/19.

#### Funding

This grant utilizes a combination of Federal (CFDA 93.778), State and County funds.
